

Covid-19 Risk Assessment

Updated 17/07/2022

From 19th July 2021, as per instructions issued by the UK Government, indoor and outdoor guided tours are now permitted in England, as long as a Covid-19 risk assessment has been completed. In England, social distancing and the wearing of face coverings is no longer required by law, although some venues may still encourage you to wear them.

The risk assessment below details how I will be keeping myself, Tour Attendees and Members of the Public safe throughout my tours. I will contact and confirm with Tour Attendees prior to the event about safety measures on the tour.

POTENTIAL HAZARDS	WHO MIGHT BE HARMED?	CONTROLS REQUIRED	ACTIONS TAKEN
Large Group Sizes	Tour Guide, Tour Attendees, Members of the Public	Limit tour group size	Outside: group sizes will be no larger than thirty people (excluding the Tour Guide). Inside: groups sizes will follow the regulations of the site in question.
Close contact with other household bubbles	Tour Guide, Tour Attendees, Members of the Public	Covering of face	The Tour Guide is <i>not</i> required to wear a face mask or visor, but will do so if requested in advance of the tour. Tour Attendees may wear a face covering at their own discretion. The tour may also include the use of audio equipment, requiring Attendees to download a smartphone application and bring their own headphones.
		Social distancing	Social distancing amongst the Tour Guide and Tour Attendees is no longer required, but the Tour Guide will plan the stops and walk the route before the tour to ensure minimal disruption to the rest of the public.
		Minimising risk of infection	The Tour Guide will be carrying hand sanitiser, which can be provided if requested. If the Tour Guide displays any symptoms of Covid-19 prior to the tour, it will not take place. Similarly, if any Tour Attendees display Covid-19 symptoms, they will be required to notify the Tour Guide and will not be able to attend the tour. If the Tour Guide or Tour Attendees must self-isolate by law, either a refund or alternative tour will be arranged.
		Vaccination	The Tour Guide has received two Covid-19 vaccinations and the booster.
